

## Parkview and Redwood Primary School Federation

# DATA PROTECTION POLICY

### Policy review dates and changes

Review date	By whom	Summary of changes made	Date ratified by governors/trustees	Date implemented
July 2024	DP	Sentence inserted at end of Who is data controller section – pg 4 <a href="#">Sentence removed in Who is data processor section – pg 4</a>		

## Data Protection Policy

Parkview and Redwood Primary School Federation are committed to working effectively to provide a secure environment to protect data that we hold and store. Whilst there is a statutory duty that is important, the fact that we store data about individuals means that we are responsible for your data, and we take that very seriously. This policy, and the Privacy Notices, set out how we look after and use data.

Each school will be responsible for the day-to-day management of data that is held about pupils, staff, parents, carers and other individuals in connection with that school.

The trust central team are responsible for data held centrally about individuals.

Where we use the phrase 'we' that refers to the school.

### What is the General Data Protection Regulation (UK GDPR)?

This is a European Directive that was brought into UK law with an updated Data Protection Act 2018 (DPA) in May 2018. It was brought into line with changes to the UK leaving the EU on 31 December 2020.

The UK GDPR and DPA 2018 exist to look after individuals' data. It is a series of safeguards for every individual. Information about individuals needs to be treated with respect and be secure.

The UK GDPR exists to protect individual rights in an increasingly digital world.

### Who does it apply to?

Everyone, including schools. As 'Public Bodies' schools and trusts have more obligations than some small businesses. It is mandatory to comply with the UK GDPR and provisions in the Data Protection Act 2018.

We want to make sure information about pupils, parents, staff and volunteers is kept secure and within the law.

### What is personal data?

Any information that relates to a living person that identifies them. This can be by name, address, or phone number for example. It also relates to details about that person, which can include opinions. Some data is considered to be more sensitive, and therefore more important to protect. This is information about racial or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership, data concerning health or sex life and sexual orientation, genetic data, and biometric data where processed to uniquely identify a person.

Schools often collect sensitive data for DfE and LA requirements and of course pupil data may contain information about safeguarding, SEN or health needs. Information about other family members may also be on the school file.

Privacy Notices that explain how data about specific groups or activities is used and stored are also available. These can be obtained from each school and links on the website to UK GDPR compliance.

### What are the key principles of the UK GDPR?

1. **Lawfulness, transparency and fairness**  
Schools must have a legitimate reason to hold the data; we explain this in the Privacy Notices. We often ask for consent to use data about a pupil for a particular purpose. If you wish to withdraw consent, we have a form to complete to allow us to process your request. There are times when you cannot withdraw consent as explained in 'Data Subjects' Rights'.
2. **Collect data for a specific purpose and use it for that purpose**

Data cannot be used for a purpose that it was not originally collected for, or where notice has not been given about how data may be used after collection.

3. **Limited collection**

Data Controllers should only collect the minimum amount of data needed for a particular task or reason. If there is a breach or a hack only limited information can be lost.

4. **Accuracy**

Data collected should be accurate, and steps should be taken to check and confirm accuracy. This is done when pupils join the school and is reviewed on an annual basis. If a Data Subject feels that the information held is inaccurate, should no longer be held by the Controller or should not be held by the Controller in any event, a dispute resolution process and complaint process can be accessed, using the suitable forms. Initially an approach should be made directly to the individual school.

5. **Retention**

A retention policy is in place that governs how long records are held for.

6. **Security**

We have processes in place to keep data safe. That might be paper files, electronic records or other information. We maintain separate ICT Usage and Information Security policies.

### **Who is a 'data subject'?**

An individual whose details we keep on file. Some details are more sensitive than others. The UK GDPR sets out collection of details such as health conditions and ethnicity, which are more sensitive than names and phone numbers.

### **Data subjects' rights**

Individuals have a right:

- to be informed
- of access to data stored about them or their children
- to rectification if there is an error on the data stored
- to erasure if there is no longer a need for school to keep the data
- to restrict processing, i.e. to limit what is done with their data
- to object to data being shared or collected

There are other rights that relate to automated decision making and data portability that are not directly relevant in schools.

Data subjects' rights are also subject to child protection and safeguarding concerns and sharing information for the prevention and detection of crime. Schools also have legal and contractual obligations to share information with organisations such as the Department for Education, Social Care, the Local Authority and HMRC amongst others. In some cases, these obligations override individual rights.

These 'Data Subject's Rights' are set out in more detail in the document 'My Rights – A Guide for Data Subjects'.

### **Subject Access Requests (SAR)**

You can ask for copies of information that we hold about you or a pupil (who you have parental responsibility for). This SAR process is set out separately. You need to fill out the form, and you may need to provide identification evidence for us to process the request.

We have to provide the information within a month, but this can be extended if the request is complicated, or the data cannot be accessed.

When we receive a request, we may ask you to be more specific about the information that you require. This is to refine any queries to make sure you access what you need, rather than sometimes getting a lot of information that may not be relevant to your query.

In some cases, we cannot share all information we hold on file if there are contractual, legal or regulatory reasons.

We cannot release information provided by a third party without their consent, or in some cases you may be better to approach them directly, e.g. school nurses who are employed by the NHS.

We will supply the information by paper or electronic form.

If you wish to complain about the process, please see our Complaints Policy and later information in this DPA policy.

#### **Who is a 'data controller'?**

The school is the data controller. They have ultimate responsibility for how the school manages data.

They delegate this processing to individuals to act on their behalf - the relevant school staff

The data controller can also have contracts and agreements in place with outside agencies who are data processors.

As the Data Controller, individuals process data on behalf of the organisation. This can be a member of staff, possibly a governor, a consultant or temporary employee.

#### **Who is a 'data processor'?**

This is a person or organisation that uses, collects, accesses, or amends the data that the controller has collected or authorised to be collected. It can be a member of staff, a third party company, possibly a governor, a contractor or temporary employee. It can also be another organisation such as the police or the Local Authority.

Formatted: Highlight

Data controllers must make sure that data processors are as careful about the data as the controller themselves. The UK GDPR places additional obligations on organisations to make sure that data controllers require contractual agreements to ensure that this is the case.

#### **Processing data**

The school must have a reason to process the data about an individual. Our Privacy Notices set out how we use data. The UK GDPR has six conditions for lawful processing and any time we process data relating to an individual it is within one of those conditions.

If there is a data breach, we have a separate policy and procedure to follow to take immediate action to remedy the situation as quickly as possible.

The legal basis and authority for collecting and processing data in school are:

- consent obtained from the data subject or their parent/carer
- performance of a contract where the data subject is a party
- compliance with a legal obligation
- to protect the vital interests of the data subject or other associated person
- to carry out the processing that is in the public interest and/or official authority
- it is necessary for the legitimate interests of the data controller or third party
- in accordance with national law. In addition, any special categories of personal data are processed on the grounds of:
  - explicit consent from the data subject or about their child
  - necessary to comply with employment rights or obligations
  - protection of the vital interests of the data subject or associated person
  - being necessary to comply with the legitimate activities of the school
  - existing personal data that has been made public by the data subject and is no longer confidential
  - bringing or defending legal claims
  - safeguarding
  - national laws in terms of processing genetic, biometric or health data. Processing data is recorded within the school systems.

### **Data sharing**

Data sharing is done within the limits set by the UK GDPR. Guidance from the Department for Education (DfE), health, the police, local authorities and other specialist organisations may be used to determine whether data is shared.

The basis for sharing or not sharing data is recorded in school.

### **Breaches & non-compliance**

If there is non-compliance with the policy or processes, or there is a DPA breach as described within the UK GDPR and DPA 2018 then the guidance set out in the Breach & Non-compliance Procedure and Process needs to be followed.

Protecting data and maintaining Data Subjects' Rights is the purpose of this policy and associated procedures.

See Appendix 2 for Breach & Non Compliance Policy and Procedure

### **Consent**

As a trust/school, where required, we will seek consent from staff, volunteers, young people, parents and carers to collect and process their data. We will be clear about our reasons for requesting the data and how we will use it. There are contractual, statutory and regulatory occasions when consent is not required.

Consent is defined by the UK GDPR as "any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her".

We may seek consent from young people also, and this will be dependent on the child and the reason for processing.

This will largely be managed in the individual school.

### **Consent and renewal**

On the school websites we have 'Privacy Notices' that explain how data is collected and used. It is important to read those notices as it explains how data is used in detail.

Obtaining clear consent, where required, and ensuring that the consent remains in place is important for school. We also want to ensure the accuracy of that information.

### **For pupils and parents/carers**

On joining the school you will be asked to complete a form giving next of kin details, emergency contact and other essential information. We will also ask you to give consent to use the information for other in-school purposes, as set out on the consent form.

The contact and consent form are reviewed on an annual basis. It is important to inform school if details or your decision about consent changes. A form is available. This is the obligation of each individual to notify the school of changes.

### **Pupil consent procedure**

Where processing relates to a child under 13 years old, school will obtain the consent from a person who has parental responsibility for the child as required.

Pupils may be asked to give consent or to be consulted about how their data is obtained, shared and used in certain situations.

### **Withdrawal of consent**

Consent can be withdrawn, subject to contractual, statutory or regulatory constraints. Where more than one person has the ability to provide or withdraw consent the school will consider each situation on the merits and within the principles of UK GDPR and also child welfare, protection and safeguarding principles.

Please complete the appropriate form.

### **Data Protection Officer**

We have a Data Protection Officer (DPO) whose role is to:

- inform and advise the controller or the processor and the employees who carry out processing of their obligations under the UK GDPR
- monitor compliance with the UK GDPR and DPA
- provide advice where requested about the data protection impact assessment and monitor its performance
- be the point of contact for Data Subjects if there are concerns about data protection
- cooperate with the supervisory authority and manage the breach procedure
- advise about training and CPD for the UK GDPR

Our DPO is John Walker whose contact details are below.

Address: 6 Delamore Park, Cornwood, Ivybridge, PL21 9QP

Email: [info@phplaw.co.uk](mailto:info@phplaw.co.uk)

### **Physical security**

As a school we are obliged to have appropriate security measures in place.

In the school, every secure area has individuals who are responsible for ensuring that the space is securely maintained and controlled if unoccupied, i.e. locked. Offices and cupboards that contain personal data should be secured if the processor is not present.

The Site Manager is responsible for authorising access to secure areas along with School Business Manager.

All staff, contractors and third parties who have control over lockable areas must take due care to prevent data breaches.

All sites and locations need to have the suitable security and review measures in place.

### **Secure disposal**

When disposal of items is necessary a suitable process must be used. This is to secure the data, to provide a process that does not enable data to be shared in error, by malicious or criminal intent.

These processes, when undertaken by a third party are subject to contractual conditions to ensure UK GDPR and DPA compliance.

### **Complaints & the Information Commissioner Office (ICO)**

The school's complaint policy deals with complaints about data protection issues.

There is a right to complain if you feel that data has been shared without consent or lawful authority. You can complain if you have asked to us to erase, rectify, or not process data and we have not agreed to your request.

We will always try to resolve issues on an informal basis, and then through our formal complaints procedure. Please complete the form, and we will contact you with more details about the timescale and process.

In the UK it is the ICO who has responsibility for safeguarding and enforcing the DPA obligations.

Email: [casework@ico.org.uk](mailto:casework@ico.org.uk)

Helpline: 0303 123 1113

Website: [www.ico.org.uk](http://www.ico.org.uk)

## **Review**

A review of the effectiveness of UK GDPR compliance and processes will be conducted by the DPO every 12/24 months.

## **Appendix 1**

### **Subject Access Request – Requester Overview**

As an organisation, we collect and process data about individuals. We explain what information we collect, and why, in our Privacy Notices.

Any individual, person with parental responsibility, or young person with sufficient capacity to make a request, is entitled to ask what information is held. So that person is the 'Requester'.

Copies of the information may also be made available on request. A form to complete is available.

To ensure that requests are dealt with in an effective and timely manner we may seek to clarify the terms of a request.

To collate and manage requests each school will have an individual allocated to co-ordinate all requests. **That information is available on the school website and the Subject Access Request form.**

### **What happens next?**

There is a SAR request form on the website. We encourage everyone to use this form as it enables us to make sure you are being provided with the actual information that you require.

Please complete the form, provide the necessary information, and send it back to the school.

Evidence of the requester's identity may be required. Discretion about employees and persons known to the school may be applicable but if ID evidence is not required an explanation must be provided by school staff, signed, and dated accordingly.

We may need to contact you to clarify details about what you have requested.

We may need to contact other people and 3<sup>rd</sup> parties, who have provided information that is on our files.

#### **Providing the Information**

We need to review the information to see what can be shared, or if any item needs another person's consent. It may be that some information is subject to an exemption and cannot be shared.

Exemptions to a SAR exist and may include:

- Education, Health, Social Work records
- Examination marks and scripts
- Safeguarding records
- Special educational needs
- Parental records and reports
- Legal advice and proceedings
- Adoption and Court records and/or reports
- Regulatory activity and official requests e.g. DfE statistical information
- National security, Crime and taxation
- Journalism, literature and art
- Research history, and statistics
- Confidential references

All data subjects have the right to know:

- What information is held?
- Who holds it?
- Why is it held?
- What is the retention period?
- That each data subject has rights. Consent can be withdrawn at any time (to some data).
- A right to request rectification, erasure or to limit or stop processing
- A right to complain

Much of this will be contained within the Privacy Notices and other information on our website.

#### **Provision and Timeline**

The information will be provided in an electronic format, usually within one calendar month of the request. However, in some circumstances if the request is complex or it is difficult to access the information, this may be extended by up to another 2 calendar months.

Information is usually provided in a secure electronic format.

Following delivery of the information the requester has the right to ask for a review or use the complaint process if they feel that information has not been provided.

## **Appendix 2**

### **Data Protection Breach & Non Compliance Procedure**

All staff and governors must be aware of what to do in the event of a DPA / GDPR breach. The 'Data Breach Flowchart' outlines the process.

The 'Data Breach Form' will be completed and updated as the process progresses.

Most breaches, aside from cyber criminal attacks, occur as a result of human error. They are not malicious in origin and if quickly reported are often manageable.

Everyone needs to understand that if a breach occurs it must be swiftly reported.

#### **What is a breach?**

A personal data breach means a breach of security leading to the destruction, loss, alteration, unauthorised disclosure of, or access to, personal data. This means that a breach is more than just losing personal data.

Examples of breaches are:

- Information being posted to an incorrect address which results in an unintended recipient reading that information

- Loss of mobile or portable data device, unencrypted mobile phone, USB memory stick or similar
- Sending an email with personal data to the wrong person
- Dropping or leaving documents containing personal data in a public place
- Personal data being left unattended at a printer enabling unauthorised persons to read that information
- Not securing documents containing personal data (at home or work) when left unattended
- Anything that enables an unauthorised individual access to school buildings or computer systems
- Discussing personal data with someone not entitled to it, either by phone or in person. How can you be sure they are entitled to that information?
- Deliberately accessing, or attempting to access or use personal data beyond the requirements of an individual's job role e.g. for personal, commercial or political use. This action may constitute a criminal offence under the Computer Misuse Act as well as the Data Protection Act.
- Opening a malicious email attachment or clicking on a link from an external or unfamiliar source, which leads to school equipment (and subsequently its records), is being subjected to a virus or malicious attack, which results in unauthorised access to, loss, destruction or damage to personal data.

#### **What to do?**

Being open about the possible breach and explaining what has been lost or potentially accessed is an important element of working with the ICO and to mitigate the impact. Covering up a breach is never acceptable and may be a criminal, civil or disciplinary matter.

Report the breach to the Data Controller, Data Protection Compliance Manager and DPO as soon as possible, this is essential.

#### **What happens next?**

The breach notification form will be completed and the breach register updated.

Advice will be sought from the DPO. Consideration is given about how to effectively manage the breach, who to inform and how to proceed.

If the personal data breach is likely to result in a risk to the rights and freedoms of the data subjects affected by the personal data breach notification to those people will be done in a co-ordinated manner with support from the DPO.

Actions and changes to procedures, additional training or other measures may be required to be implemented and reviewed.

The breach report will be within 72 hours of becoming aware of the breach.

It may not be possible to investigate the breach fully within the 72 hour timeframe. Information about further investigations will be shared with the ICO with support from the DPO.

#### **Procedure – Breach notification data controller to data subject**

For every breach, the school will consider notification to the data subject or subjects as part of the process. If the breach is likely to be high risk they will be notified as soon as possible and kept informed of actions and outcomes.

The breach and process will be described in clear and plain language.

If the breach affects a high volume of data subjects and personal data records, the most effective form of notification will be used and discussed with the Data Controller with support from the Data Protection Compliance Manager and DPO.

Advice will be taken from the ICO about how to manage communication with data subjects if appropriate.

A post breach action plan will be put into place and reviewed.

#### **Evidence Collection**

It may be necessary to collect information about how an information security breach or unauthorised release of data occurred. This evidence gathering process may be used as an internal process (which can include disciplinary proceedings), it may be a source of information for the ICO, it could also be used within criminal or civil proceedings.

This process will be conducted by a suitable member of school staff, which may be the Data Management Compliance Officer or Data Protection Officer, but will be determined depending on the nature of the breach.
