

Social, Moral, Spiritual and Cultural Development at Parkview

At Parkview, SMSC underpins much of what we do. We recognise that the personal development of the children – spiritually, morally, socially and culturally – plays a significant role in their ability to learn, and to grow into well rounded members of society.

SMSC at Parkview is considered to be a ‘whole school issue’. It is promoted not only through all the subjects of the curriculum but also through the ethos of the school and through the development of positive attitudes and values. It is crucial for individual pupils and for society as a whole. It is the heart of what education is all about, helping pupils grow and develop as people.
