SUPPORTING CHILDREN'S RETURN TO ROUTINE

START EARLY

Gradually reintroduce school-day sleep, meal, and wake-up routines around a week before term begins. In education settings, familiar routines and expectations can also be introduced from the start of term to help pupils settle back in. A gradual and predictable approach can make the transition feel less abrupt and give children and young people the time they need to readjust to the structure of school life.

PRIORITISE SLEEP

Ensure the children and young people in your care get age-appropriate sleep and begin returning to their usual bedtime habits before term starts. Reducing screen use before bedtime may also support better sleep quality. Educators can also be mindful that tiredness may temporarily affect children's concentration, behaviour, and emotional regulation as they readjust to school routines.

Karam Singh

Karam, who is a break dancer, joined us for an assembly. He certainly entertained the children with his talents.

Road Safety at Parkview

Parkview has a traffic-calming scheme designed to make your journey to and from school safer for our children. To enable the scheme to work effectively we need your co-operation.

We appreciate your co-operation to keep our children safe.
